Ofir Goren
UI/UX
Team

1. Kanban boards in this sprint:

Beginning of the sprint

End of sprint

2. General summary of work
    2.1. <u>What went well for the team and should be continued the on next phases of work</u>
        2.1.1. Dividing into smaller groups.
        2.1.2. Giving more space between each meeting session.
        2.1.3. Good communication between subgroups.
        2.1.4. Good Team Lead management.

    2.2. <u>What should be improved in teamwork</u>
        2.2.1. Maybe another meeting session will be more relevant.
        2.2.2. Elaborate more in commits.
        2.2.3. Be more efficient with time.

    2.3. <u>What problems did the team encountered through this phase of work</u>
        2.3.1. Spring boot froze the Team Leader's computer, Antivirus kept notifying about viruses.
        2.3.2. The DBA and his teammate had problems integrating the SQL Database with code due to MySql incompetence.

    2.4. <u>Why did we not complete all planned work</u>
        2.4.1. We did.

    2.5. <u>What is expected for the next sprint</u>
        2.5.1. We're expecting to decide which client side should be implemented in the realistic time frame of the course.
        2.5.2. Finishing the project requirements document.
        2.5.3. Implementing our application to the code.
